Penthouse at 200 11th Avenue

200 11th Avenue

Architect Annabelle Selldorf designed the duplex penthouse at 200 Eleventh Avenue to offer the ultimate in rooftop living with abundant public and private spaces, highlighted by a 2,000-square-foot terrace. The penthouse is sited above the Chelsea Cove portion of Hudson River Park, providing views framed by floor-to-ceiling windows. This three-bedroom home has 3,000 square feet and is filled with light, with views of the Hudson River and beyond. A private rooftop sanctuary offers skyline and East River views. This home features 15-foot ceilings on the top floor and a wood-burning fireplace, and it employs cutting-edge technology, including New York's first En-Suite Sky Garage. Offered by Prudential Douglas Elliman.
